Mockup Pages by Do Not Design

Seenthesis: Visual Literacy Through Singapore Photography

Seenthesis: Visual Literacy through Singapore Photography is DECK's first attempt to produce a comprehensive material for school educators to incorporate photography into their teaching and engagement with classroom students.

This inaugural resource book contains easy-to-digest information on photography theories, vivid colourful spreads which introduce Singapore photographic works, modular classroom activities based on current education curriculums, ways to present photography, supplementary activities before visit to exhibition, and glossary pages of photographic terms.
